

MEMORANDUM

TO: National Register Property Owners and Other Interested Parties

FROM: Jennifer Satterthwaite
Preservation Program Assistant
State Historic Preservation Office

SUBJECT: National Register Plaques Price Increase

DATE: September 1, 2011

Effective September 1, 2011 the cost of SC National Register of Historic Places bronze plaques will increase to \$125.00 (postage and handling charges included). Because the price of metals and production has increased as well as the shipping costs, we are increasing the price of the plaque to cover those increases. The SC State Historic Preservation Office does not profit from the sale of National Register plaques and have increased the fee only to cover the base costs of production, engraving and shipping. We apologize for any inconvenience that this may cause property owners.

If you have any questions regarding the fee or the National Register plaque & certificate program, please feel free to contact me at any time. Applications for plaques and certificates can be found on our website: <http://www.shpo.sc.gov/properties/register/>
